What is Healing at the Hall?

These sessions will take you on a wonderful journey of exploration with each month focusing on a different healing aspect, allowing you to take a moment just for yourself to take a break from life, relax, allow yourself to receive healing and connect within yourself.

These sessions will leave you feeling refreshed, energised and more compassionate towards yourself.

How can these sessions help me?

These sessions help you to make conscious contact with the wonderful universal healing light and healing frequency. As a hypnotherapist and energy healer, my skill is to help you and your aura to attain a frequency which allows for healing to be received by you.

Healing is another word for choice - and these guided hypnosis sessions aim to help you to reach a level of relaxation as well as allowance in order for you to receive the healing that is needed the most.
